## 13 GOOD REASONS TO INSTALL A NEW ARA

1. It takes up very little space.
2. No maintenance required.
3. It works without electric connections.
4. It doesn't require salts or other chemical products.
5. It is 100% eco-friendly, good for the health and good for the environment.
6. It prevents the closure of the pipes, heat exchangers, irons, washing machines, dishwashers, water heaters, etc..
7. It removes limescale deposits from old plants.
8. It extends the life of equipment.
9. It decreases operating costs.
10. It pays for itself quickly.
11. No deposit of salts and occupancy of necessary space.
12. It treats the house, a single apartment or a condominium building in its entirety.
13. It is guaranteed for life.
