VISION OF OUR COMPANY:

Economic result is not a goal which has to be anxiously pursued, but a consequence of a proper business conduct.

MISSION OF OUR COMPANY SINCE 1979:

- improvement is a due objective, easily attainable with limited investment;
- certification of quality represents a starting point for pursuing and maintaining competitive advantage.

The background of the slide is an abstract composition of blue and red spheres of various sizes, connected by thin, swirling blue lines. The overall effect is reminiscent of a molecular structure or a complex network. The colors are vibrant, with the red spheres having a slight orange glow and the blue lines appearing as thin, ethereal trails.

## CORE BUSINESS

To identify and provide targeted solutions for energy-saving needs, abatement of emissions in the atmosphere and limescale in pipes, equipment, installations, etc.

# Our products

## NEW ARA

Ionic accelerators with permanent natural magnets for water treatment against limescale.

## SUPER CATALYZER

Catalyzers with permanent natural magnets for fuel saving and smoke reduction in the atmosphere.
